

Automobiles Trims, Biaxial Geogrid, Erosion Control Materials, Filtration Cloth, Fire Barrier Mattresses, Geosynthetic Clay Liner, Geotextile Landfill, Geotextile Separation Layer, HDPE Geomembrane, Insulation Cloth, Medicated Bands, Non Woven Geo Bags, Non Woven Perforated Geopipe, Nonwoven Geotextile, Perforated Geopipe, etc.

**MEDICATED BANDS**

**FILTRATION CLOTH**

**INSULATION CLOTH**

## About Us

We have been enjoying great reputation as prominent brand dealing in premium quality non-woven fabrics since 1987. In the last decades we have come through several golden phases of success and development and today established ourselves as a leading manufacturer and supplier of a range of products including Uniaxial Geogrid, Perforated Geopipe, Hdpe Geomembrane, Geotextile Fabric, Nonwoven Geotextile Fabric, Thermal Bonded Wadding and Embossed Non-Wovens. Ever since we forayed into this field, we, Jeevan Products, have been gaining phenomenal success in each passing year. Our aim to provide the fastest service, latest products in non-woven has fetched us a huge clientele. We started thermal bonding way back in 1987 and then we have mastered it. Presently we manufacture non-wovens right from 100 gm to 6000 gm. We make non wovens from 0.3 mm to 125 mm thick.

Our assembling procedure speaks to the forefront as far as innovation. From mixing of filaments to needle-punching through accuracy needles for interlocking the strands, the procedure is always checked to control attributes, for example, consistency of weight, thickness, and so forth. Our thermoforming procedure is perfect for making complex three-dimensional shapes, that are sparing, precise and flexible also. We utilize the best materials sourced from our office in China and Shanghai that can remove a high generation yield from our plant and types of gear.

## Key Facts

<b>Nature of Business</b>	Manufacturer
<b>No of Staff</b>	35
<b>Year of Establishment</b>	1987
<b>OEM Service Provided</b>	No

**Our Products**

**Waterproofing Membrane**

**Uniaxial Geogrid**

**Nonwoven Geotextile**

**Geosynthetic Clay Liner**

**Waterproofing Geotextile**

**Geotextile Landfill**

**Textured HDPE Geomembrane**

**Non Woven Perforated Geopipe**

**Perforated Geopipe**

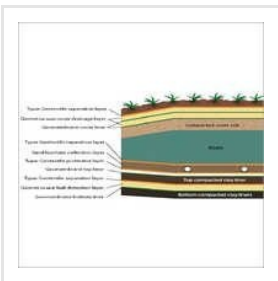

**Woven Geotextile**

**Polyfill Roll**

**Non Woven Geo Bags**

**Geotextile Separation Layer**

**Biaxial Geogrid**

**Erosion Control Materials**

**Fire Barrier Mattresses**
